

CBDC Governance XDAO Charter Proposal

- 8/23/2022– **1st**, CONTRACT XDCDBB72C8B7EBDD52A4813B9D262386DFDAB69C9BA,
11/8/2022 **CBDC Governance XDAO Charter Ratification Vote** is for its **LP Token CBDCLP** to fund via **USDC EUROCBDCX CBDCY CBDCZ, etc.** campaign contributions to elected officials who are sponsors of legislative measures which require a **CBDC Bill of Rights**, Freedoms, and Duties be encoded into the administration of their **CBDC programmable money** (see E.O. 14067 Sec. 4).
Global invitation is extended for membership in this **CBDC Governance XDAO** to everyone interested in more effective self-interest representation in the current global crisis of the monetary, fiscal, taxation, total field economic imperialism reset of the emergent digital Industrial Revolution 4.0:
- Quorum for all voting proposals is set at 60%
 - Voting for CBDC Governance XDAO ratification ends on US Midterm Election day.
 - Voting for new members repeats every day per standard [XDAO app rules & tutorials](#).
 - Membership requires Chrome extension Metamask wallet address for signing.
 - Next phase is to codify proposal on the [r3 Corda smart contract platform](#) including Oracle smart contract event detection when qualifying bills are filed on Congressional Register triggering any proposed USDC quarterly campaign donations. [XRP Ledger transaction memos](#) transmit [XRP Stamp notarization data](#) same as land deeds and so on.

Crisis 2022: **Programmable Money**, AI INFRASTRUCTURE, is coming like 1984 gone digital. Financial inclusion is of the essence wherein the long train of institutionalized geopolitical market manipulation has created the urgency for global reset. Public trust and confidence can only be reset by the financial inclusion of every nation's bill of rights into administering its CBDC programmable money thus generating a macroeconomic human-ai restoring force as discussed further in this [Devpost Hackathon: Ripple CBDC Innovate project](#).

Member Proposals Towards a Board of Directors, XDC USDC EUROCBDC Investments and Funding Sponsorship of New Measures

- Proposals **Funding is proposed for any sponsor of a bill**, CODIFYING, SEC Commissioner Hester Peirce's [Token Safe Harbor 2.0 proposal](#), e.g., Rep. Patrick McHenry.
An Adjustable Flat tax 15% initial rate is proposed adjustable by public vote ballot options every two-year Congressional Election cycle. Members are encouraged to write proposals on known matters including accredited investors, naked shorts, cash confiscation, and so on.
- LP Token **r3 monetization of**, TRANSACTION DATA VALUE, proposal:
- Investments The present LP Token initial public offer of **1 LP CBDCLP Token = 1 XDC** is for $\frac{1}{2}$ of **AUM** to go towards funding sponsors of **CBDC Bill of Rights** measures and $\frac{1}{2}$ invested in XDC Network XinFin investments seeking 7% or better.
- GitHub **A L^AT_EX template for writing proposals**, IN THIS FORMAT, is available at: [CBDC Governance XDAO GitHub Repository](#) whereas L^AT_EX editors are available for free download for all operating systems.
