CBDC Governance XDAO Charter Proposal

8/20/2022- 1st, Contract xdcdbB72c8B7eBdD52A4813B9D262386dfDAB69c9bA, 11/8/2022 CBDC Governance XDAO Charter Ratification Vote is for its LP Token CBDCLP to fund via USDC EUROC CBDCX CBDCY CBDCZ, etc. campaign contributions to elected officials who are sponsors of legislative measures which require a CBDC Bill of Rights, Freedoms, and Duties be encoded into the administration of their CBDC programmable money.

> Global invitation is extended for membership in this CBDC Governance XDAO to everyone interested in more effective self-interest representation in the current global crisis of the monetary, fiscal, taxation, total field economic imperialism reset of the emergent digital Industrial Revolution 4.0:

- O Quorum for all voting proposals is set at 60%
- O Voting for CBDC Governance XDAO ratification ends on US Midterm Election day.
- O Voting for new members repeats every day per standard XDAO app rules & tutorials .
- Membership requires Chrome extension Metamask wallet address for signing.
- Next phase is for Solidity smart contracts hosted on the Codius smart contract event Oracles monitoring platform to detect when relevant bills are filed on the Congressional Register triggering any proposed USDC quarterly campaign donations. XRP Ledger transaction memos transmit XRP Stamp notarization data same as land deeds and so on.

Crisis 2022: Programmable Money, AI INFRASTRUCTURE, is coming like 1984 gone digital. Financial inclusion is of the essence wherein the long train of institutionalized geopolitical market manipulation has created the urgency for global reset. Public trust and confidence can only be reset by the financial inclusion of every nation's bill of rights into administering its CBDC programmable money thus generating a macroeconomic human-ai restoring force as discussed further in this Devpost Hackathon: Ripple CBDC Innovate project.

Member Proposals Towards a Board of Directors, XDC USDC EUROC Investments and Funding Sponsorship of New Measures

Proposals Funding is proposed for any sponsor of a bill , CODIFYING, SEC Commissioner Hester Peirce's Token Safe Harbor 2.0 proposal, e.g., Rep. Patrick McHenry.

> An Adjustable Flat tax 15% initial rate is proposed adjustable by public vote options every two-year Congressional Election cycle. Members are encouraged to write proposals on other known matters including accredited investors, naked shorts, and so on.
